

## **Diesel Common Rail Diagnostics** *Diesel Injection & Exhaust After Treatment*

*Instructor:*

**Tony Salas,**  
**DELPHI**

Diesel engines are relatively similar in their basic design and operation across all manufacturers, in their combustion process. However, the fuel delivery system, the engine management system, and the exhaust system can vary significantly from manufacturer to manufacturer.

- Those Differences Often Create the Challenges in Determining the Exact Cause of an Issue
- Duramax 6.6 Engines from 2007 to the New 2017+ L5P Versions
- Dodge/Ram 5.9/6.7 Engines
- Ford's 6.4L and 6.7L Engines
- Known Model Specific Issues and Repairs
- Diagnostics and Repair Information for each Model
- Case Studies and Diagnostic tips

Become more efficient in diagnosing real-world issues with diesel engines and their systems.

**Delphi**

**Wed 02/18/26**  
**Thu 02/19/26**

**6pm to 8pm**  
*Eastern time zone*

*Code:* **OLT520**  
*Cost:* **\$150 USD**  
*Per Student*
