Carquest Technical Institute (CTI) and Worldpac Training Institute (WTI) joined forces to launch new exciting training programs for the World Professional Automotive Community.

Classes are open to all interested shop owners and technicians. Our goal is to keep our shop community working together and moving forward in a positive direction during challenging times.

Live online classes featuring advanced-level technical and business management training are presented by CTI and WTI instructors, guest industry leaders, automotive systems experts from OE and premium aftermarket suppliers and manufacturers.
